

# FREE counselling services to help tackle life's challenges

Post-Covid, many of us are experiencing increased levels of stress. Quite common is stress related to rising living costs and financial pressures or difficulties managing social interactions and relationships in a post-pandemic world. Accessing subsidised psychologist sessions has become more challenging due to a reduced availability. This made affordable counselling further out of reach for many who are in urgent need of it.

Funded by the Sydney North Health Network (SNHN), Anglicare is offering a FREE counselling service which does not require a doctor's referral or a mental health care plan. Access to the service is easy, we have online, phone and some face to face options available.

Check out our upcoming weekly one hour group courses and webinars running from 1 to 4 weeks.
